WHETHER IN THE EAST OR IN THE WEST, was the opinion expressed by MR. HAROLD CALLENDER, of the NEW YORK TIMES, when interviewed by a representative of the Hongkong Daily Press on his arrival at Kai Tak by the California Clipper vesterday afternoon.

Mr. Callender gave two reasons for his belief that the United States would not become involved in war at the present time.

"THE FIRST REASON," HE SAID, "IS THAT PUBLIC OPINION IN THE STATES IS DEFINITELY AGAINST IT, AND THE SECOND IS THAT WE ARE NOT PRE-PARED."--

TEMPORARY WITHDRAWAL

SINGAPORE, SEPT. 4 (REUTER)-WELL-INFORMED QUARTERS HERE STATE THAT INFORMATION FROM SAIGON IS TO THE EFFECT THAT THE JAPANESE ULTIMATUM HAS BEEN WITHDRAWN FOR THE TIME BEING

Tension, following the rejection of the Japanese demands for permission to send troops through French Indo-China, is rife throughout the Colony, states a Salgon message.

Owing to the present very strict censorship, it is impossible to discover for certain what is happening or what the immediate future holds in store. It would appear, however, that the die is not yet cast, for despite the open rejection of Japan's demands, negotiations between Japanese and French Indo-China anthorities continue—in an outwardly friendly and rational manner.

General Nishihara remains on Indo-China soil.

As a result, river traffic between Hongkong, Canton and Macao is suspended.

Messages from Chungking indicate that the Chinese forces concentrated on the frontiers of French Indo-China are ready to go into action at a moment's notice.

According to Chinese reports from Indo-China, people in the various parts of the Colony are organising petitions for a firm stand against the Japanese.

SUMA'S HOPE

TOKYO, Sept. 4 (Reuter)-"We lope that everything will be well managed in French Indo-China notwithstanding the various runours to the contrary, and we hope that matters will be smoothed out in a few days time," stated Mr. Yakichiro Suma, the Foreign Office spokesman today at a Press con-

MUTUAL CONFIDENCE, GOODWILL PAVED WAY FOR NAVAL TREATY

Practical Means For Aid Evolved: London Pleased

BETWEEN BRITAIN, U.S.

LONDON, Sept. 4 "(Renter)-It is officially announced in London that the Anglo-American Naval Treaty, signed in Washington on Monday, provides for immediate transfer to Britain of 50 United States destroyers and in return Britain will make available to the United States on a 99-years lease certain naval and air facilities in British territory on the seaboard of the North American continent

The notes accompanying the agreement make clear that the British Commonwealth and the United States have evolved. during the negotiations, a practical method of contributing materially and effectively to each other's defence requirements

referred to as the 1,200-ton type.

the claims made are proved a fallacy? Would you buy that article a second time? While advertising is a powerful force in educating as to the uses, merits or money saving advantages of a product, the people are the judges when they make their first purchase. "Delivering the goods" is what they demand, and the scrap heap of failures is piled with goods that could not stand the test of public judgment. 'ASPRO' messages are carefully planned to prove what 'ASPRO' can do to alleviate pain and suffering, and the reason of its success throughout the civilised world is simple, because it fulfils

all claims made for it. Its purity is its safety, and its quick action the healing service humanity appreciates. BUTTER AND CHEFSE PRODUCTION

A swing from butter to cheese has been reported in Canada this year in the dairy industry. Nevertheless, the production of both creamery butter and factory cheese showed gains for the first-five months of the year. As between these two products, moreover, the making of butter still takes much the larger proportion of milk. The proportion of milk used in these two operations, which goes to the making of butter, has varied from 93.6 per cent in January to 81.5 per cent in May.

showed a sharp decline in butter and Alberta 8,707,000 pounds. but a big increase in cheese. Import returns for four months likewise indicated a decline in butter but an increase in cheese. Trn-"ports were, as usual, greatly exceeded by exports.

Taking a long ylew of the Canadian dairy industry the production of cheese for export has been, replaced by the manufacture of butter for home comsumption.

The production of creamery butter in Canada in the Yirst five months of the present year totalled 73.971,000 pounds as compared -with-72,954,000-pounds-in-the-sameportion of last year. On the May third comparison there was a slight decline from 27,827,000 to 27,249,000 pounds.

ONTARIO FIRST

Ontario led the provinces of the Dominion, for the five months, in output of creamery butter, with Quebec second and Alberta third. The production in Ontario during the five months was 29,671,000 Price, £256-7/8.

Construction Industry Of Canada

The construction industry of Canada this year has been characterized by greatly increased activity. Coincidentally there has been a marked rain in the production of building materials. For the first four months of the year the value of building permits in the urban centres has risen by \$1.3 per cent. While the value of contracts awarded has advanced by 46 per cent.

Production returns for building materials are not available for so long a period, but big gains have VOLUME OF been reported for the first two months of the year. As compared with the first two months of 1939, the production a of lime in the Dominion has risen 44 per cent approximately, clay products 48 per cent, and cement 70 per cent while the output of gypsum nas been quintupled

The value of contracts awarded in the construction industry of Canada in the first four months of the present year was \$58,244,700 as compared with \$39,889,400 in the same portion of 1939, The further slight improvement figures as to awards of contracts was registered in prices today, are derived from The MacLean

> On the same comparison the value of building permits in 58 cities collected by the Dominion Bureau of Statistics rose from \$12,888,800 to \$16,922,400.

202 MUNICIPALITIES

This year figures have also been issued which are based on returns from 202 municipalities, and for the four months, the total was \$22,682,300. On the comparison for April, the value of building permits rose for 58 cities from \$5,960,600 to \$6,959,500. On the same comparison, contracts awarded increased from \$12,303,200 \$25,905,000.

NON-FERROUS METAL

Canada occupies a favourable position for the development of industries founded on non-ferrous metals. Two branches of manufactures which conduct operations in the base metals are the brass and copper products industry and the white metal alloys industry, both of which are showing healthy growth. The former reached its peak in 1929 but the record was closely approached in 1937. For the latter, 1937 established the highest value of production to date.

MANUFACTURING

The volume of manufacturing production in Canada in 1938, although slightly below the peak of 1937 will again show an advance over 1929, it is anticipated This view is expressed in an official preliminary report just issued on manufactures in 1938

The gross value of output in that 'year was lower than in 1937 but was otherwise the highest since 1929. The official index of volume has not yet been issued for 1938; but while the gross value declined in that year fourteen per cent below 1929, the index of general wholesale prices showed a decrease of over seventeen per cent.

The three leading industries, in gross value of output, were, in 1938 as in 1937, non-ferrous metal smelting and refining, pulp and paper and slaughtering and meat packing.

It is also announced in Washington that Admiral Harold Stark, Chief of Naval Operations, has fulfilled legal requirements for disposing of the destroyers by certifying that the release of the vessels and the acquisition of the defence bases would strengthen rather than impair the nation's detences.

ISOLATIONIST COMMENT The Navy Department stated that the destroyers represented current value of approximately \$85,000,000.

The first Isolationist comment came from Senator Gerald. Nye who, referring to the Attorney-General's view that the arrangement did not require Congressional action, declared: "This indfcates that our leadership is already using dictatorial practices and ignoring laws and treaties in the name of emergency."

Senator Barkeley would fully approve the arrangement.
